# Arwin Yellapurkar

Full-stack web developer
arwin.webdev@protonmail.com | arwin.site | github.com/arwin4
Arnhem, The Netherlands

Summary

I am a highly organized person with an acute eye for detail. I have always been interested in creating websites and working with computers. When I discovered a hands-on curriculum that teaches web development by building things by myself, I decided to pursue a career in the field.
I am at my happiest when I am designing visually appealing, user-friendly products while writing elegant code that is straightforward to read.

Skills

Frontend: JavaScript, TypeScript, HTML, CSS, Jest, React Router/Remix, WCAG, Tailwind
Backend: Node.js, Express.js, MongoDB, REST APIs, Jest, Socket.io, JWTs, SSR
Tools: Git, Linux, ESLint, Postman, Test-driven development, Webpack, Vite, Redis
Languages: Dutch (native), English (fluent)

Projects

Odinstagram   odinstagram.arwin.site
- Developed an Instagram-like website allowing users to sign up, post, comment, like and follow
- Designed a fluid user experience by creating pending UI, loading states and error handling
- Implemented backend endpoints according with JSON:API specification through test-driven development, ensuring efficient and uniform API responses
- Minimized loading time by writing MongoDB aggregate queries to rapidly find, combine and paginate documents from different collections

SocketSpeech   chat.arwin.site
- Developed a mobile-first chat app, including group chats, friends, and chatbot
- Incorporated real-time rendering of new messages, group members and conversations
- Ensured accessibility for visitors with low vision and those using screen readers
- Implemented authentication and encryption of local user data

Experience

Regional staff planner, salesperson, Bever B.V. – Arnhem, The Netherlands   May 2019 – May 2022

Education

The Odin Project   March 2023 - June 2024
- Completed a self-led, seven-course program that teaches full-stack web development
- Built projects just outside of my skill set, pushing me to continuously improve as a programmer
- Developed data models, application logic and user interfaces autonomously
- Exchanged feedback with the program's community of learners and professionals

National Outdoor Leadership School, Rocky Mountains, USA   Oct 2017 - Dec 2017
Fall semester for outdoor educators. A-
- Learned how to lead others safely through the vast American wilderness
- Excelled as a dependable leader, showing tolerance to adversity and an ability to work and collaborate with groups

Wageningen University & Research - Forest & Nature Conservation   Sept 2016 – July 2017
Utrecht University - Artificial Intelligence   Sept 2015 – July 2016
I realized that the learning style at university did not suit me. I much prefer learning by doing.
Minkema College - Pre-university education (Vwo)   Sept 2008 – June 2014
